**Implementing
The Public Health Act**

The Public Health

Re-authorization, Re-vitalization, Re-organization

Re-Act of 2008

- ✓ **All counties have a local public health agency**
- ✓ All counties governed by a local board of health
- ✓ The state facilitates a public health improvement plan approved by the State Board of Health
- ✓ All counties develop local public health improvement plans
- ✓ State Board of Health establishes minimum qualifications for directors, core services and standards

Office of Planning and Partnerships

- A new office in CDPHE that:
 - Meets the implementation goals of the 2008 Public Health Act
 - Maintains positive relationships with local public health
 - Establishes credibility in planning within CDPHE and among local agencies
 - Works closely with the Public Health Alliance, the Colorado School of Public Health and other partners
 - Funding from the Caring For Colorado Foundation

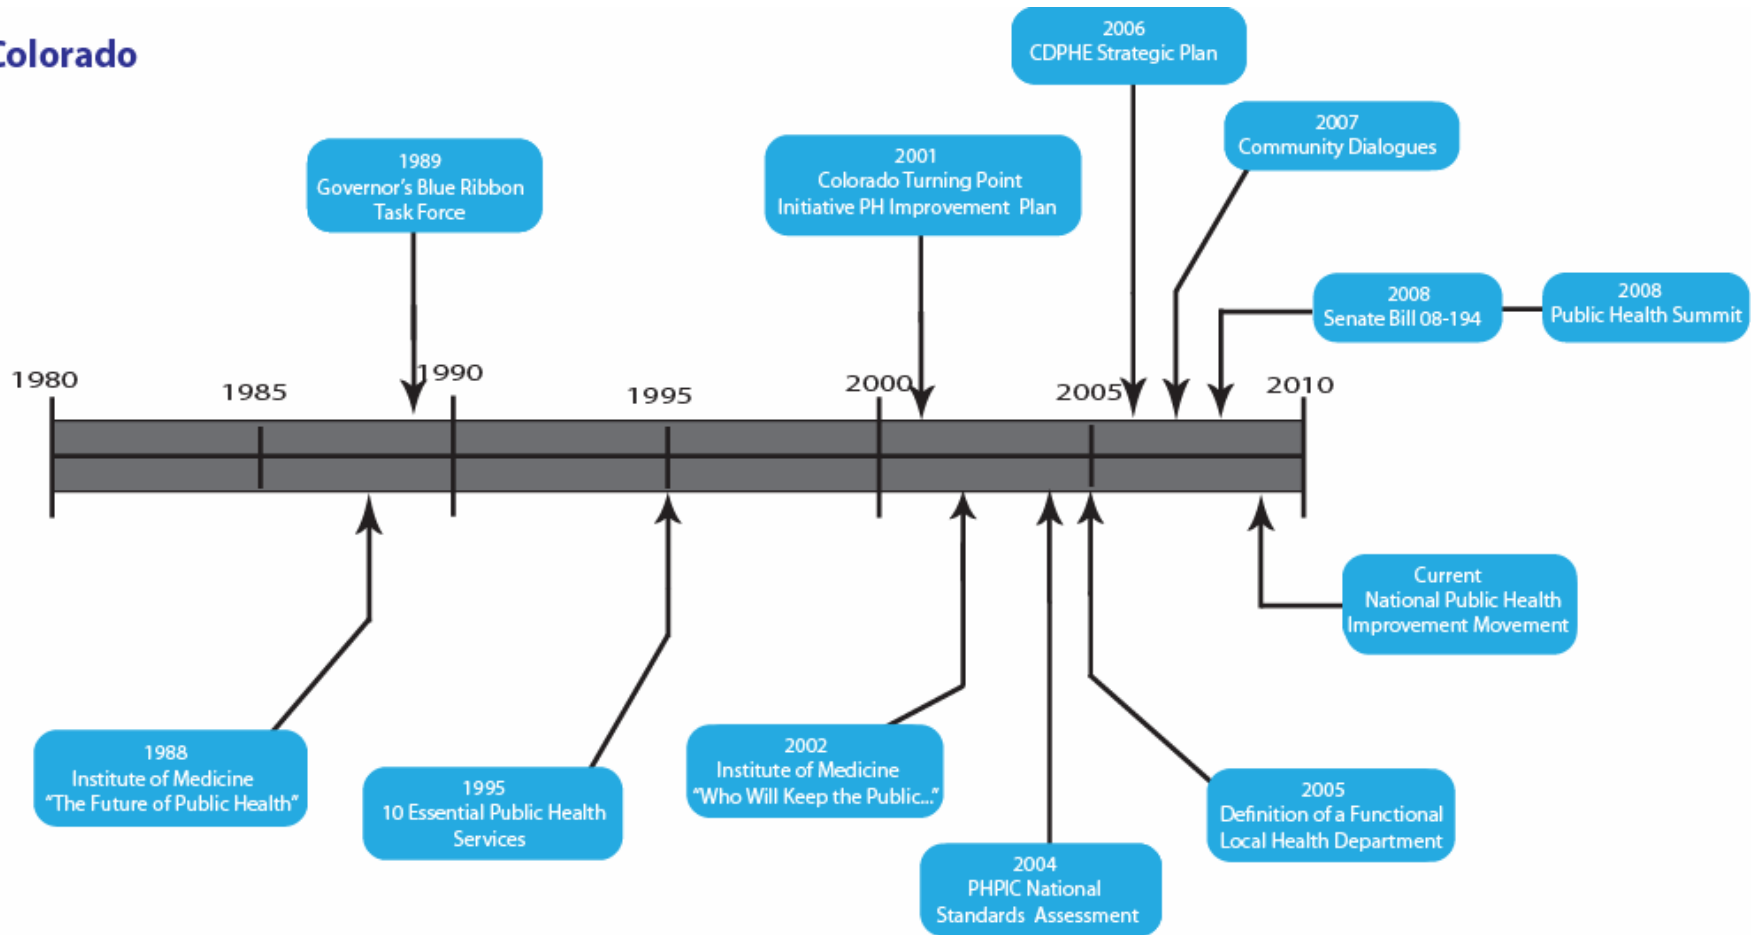

Statewide Public Health Improvement Plan

Continues where previous processes left off...

National

Statewide Public Health Improvement Logic Model

Inputs	Strategies	Outputs	Short-Term Outcomes	Intermediate Outcomes	Long-Term Outcomes
<p>Existing Public Health Infrastructure</p> <p>Existing Knowledge Base</p> <p>Colorado's history and momentum toward Public Health improvement</p> <p>Experience of others on this path</p>	<p>Establishment of formalized planning office</p> <p>Convene partners as advisors and ad-hoc workgroups</p> <p>Stakeholder input</p>	<p>Statewide Improvement Plan</p> <p>Improved Partnerships Across Multiple Sectors</p> <p>Implement Statewide quality improvement</p> <p>Local Public Health Improvement Plans</p>	<p>Strong Public Health System</p> <p>Recognized value of public health</p> <p>Public Health science base is strengthened</p> <p>Prepared for accreditation</p>	<p>Public Health System that Equitably, Efficiently, and Effectively provides the 10 Essential Public Health Services</p> <p>Integrated community, environmental, and personal health</p>	<p>Improvements in Determinants of Health</p> <p>Improved community, environmental, and personal Health Status</p> <p>Improved Quality and Quantity of Life</p>

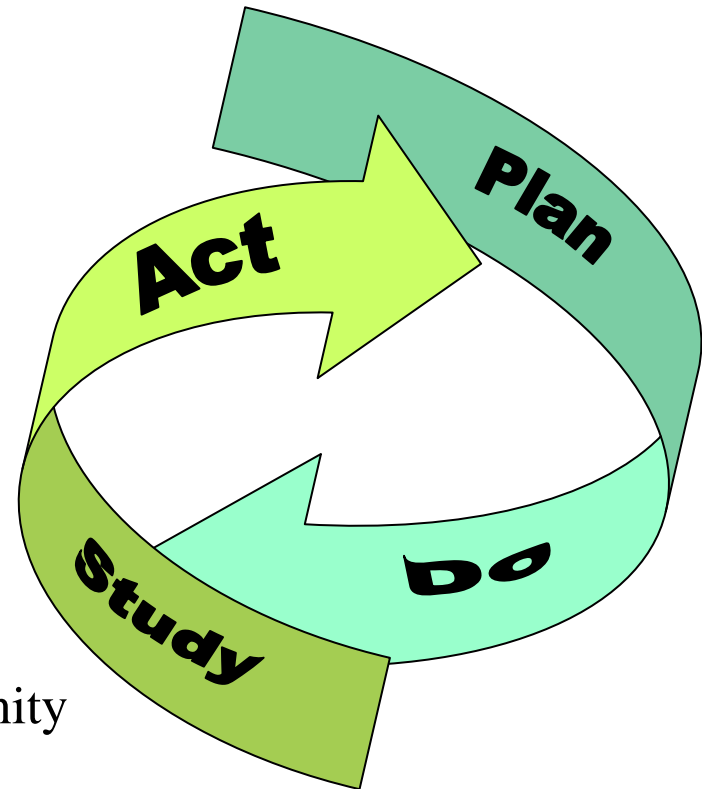

Statewide **Public** Health Improvement Plan short-term and long-term outcomes

Before this SHIP sails.....it must incorporate and address

- Public Health System Performance
- Community, Environmental, and Personal Health Outcomes

Planning Process

- Set goals
- Identify strategic priorities
- Organize participation
 - Develop workgroup for each priority
- Action plan from each workgroup
 - Agree on problem statement
 - Identify recommendations
 - Suggest lead agencies
 - Establish benchmarks
- Coalesce and vet by Advisory Group
- Gather input from the public health community
- Obtain approval from State Board of Health
- Implement plan – our charter

Plan for Developing the Plan: Organizing Participation

- **Initiating Workgroups**
 - Topical experts across the public health system
 - Develop recommendations for advancing strategic priorities
- **Critical Input Meetings**
 - Engaged representatives across the public health system
 - Provide input to the draft proposals
- **Uniting Public Health Conference - September 30, 2009**

Public Health System Improvement Strategies

Strategies Identified
Include:

- Health Status Indicators
- Data and Technology
- Workforce Development
- Services, Standards and Delivery
- Public Health Roles and Relationships
